# GAS PIPELINE OPERATIONS

A certificate program in Gas Pipeline Operations that could lead to a career in the natural gas industry.

## PROGRAM CURRICULUM

- New Construction Operator Technician Classroom Training: Installation, inspection of pipes, regulation of gas meters, understanding the gas industry, location markings, and accident awareness and prevention
- Hands-On Instruction: leak detection pipe inspection, gas indicator reading, diagnostic-voltage, current, resistance, pipe-fitting, reading pipeline drawings, pressure gauge inspection, meter and regulator installation, and safety techniques
- Soft Skills Training: communication and teamwork skills, resume writing and career readiness
- Students are required to take the NGA (Northeast Gas Association Exam)
- A job fair for graduates will take place at RCC at the end of the program

The Career Skills Academy at Rockland Community College gives students the chance to learn skills and quickly enter the workforce.

April 13, 2020 – May 1, 2020  
Monday-Friday  
7:15am-4:00pm
